SUMMARY

Results-driven Supply Chain Professional with **6+ years of experience** in **order fulfillment, MRP planning, and logistics coordination** across Automotive, healthcare and CPG sectors. Proven expertise in **SAP MRP execution, Clear-to-Build (CTB) analysis, and PR/PO management**, driving measurable results in customer fulfillment and inventory accuracy. Recognized for optimizing end-to-end supply chain operations through data-driven problem-solving, process standardization, and cross-functional collaboration with operations, procurement, and logistics teams.

EDUCATION

Arizona State University, Tempe, United States - Master of Science, Supply Chain Management May 2025
Alliance University, Bengaluru, India - Bachelor's of Technology, Electronics & Communication Engineering Jun 2021

WORK EXPERIENCE

- Waymo – Aftermarket Materials Program Manager Nov 2025 — Current
 - Led end-to-end supply chain advisory for advanced autonomous vehicle programs, ensuring materials readiness, supplier capacity alignment, and logistics strategy execution to meet aggressive go-to-market timelines.
 - Developed and executed materials management and procurement strategies by identifying structural supply risks, evaluating cost–service tradeoffs, and implementing mitigation plans to ensure program continuity in a high-complexity environment.
 - Built integrated planning models and performance dashboards linking demand forecasts, material availability, and program milestones, enabling faster, data-driven executive decision-making.
 - Partnered cross-functionally with Engineering, Finance, and Operations to translate technical requirements into scalable supply chain strategies supporting successful product launch and sustained growth.
- Eversana - Supply Chain Planning Team Lead Aug 2023 — Jun 2024
 - Managed **2,100+ SKUs** in medical consumables, overseeing the **entire order-to-ship process**, including demand evaluation, material planning, and on-time delivery execution.
 - Led **MRP and Clear-to-Build (CTB) planning** in SAP by analyzing component availability, production capacity, and open orders to release executable production schedules with **98% on-time accuracy**.
 - Created and tracked **Purchase Requisitions (PRs)** and **Purchase Orders (POs)** in SAP to ensure **raw materials and packaging** were available **just-in-time (JIT)**, reducing line stoppages by **15%**.
 - Partnered with **production, logistics, and warehouse teams** to expedite delayed components, achieving **98% order fulfillment** and reducing **shortages by 18%**.
 - Collaborated with logistics and 3PL partners to coordinate outbound shipments, improving on-time delivery performance by **12%** and lowering freight discrepancies by **20%**.
 - Maintained **SAP planning parameters** (lead times, safety stock, lot sizes) to align material flow with demand while reducing excess inventory by **12%**.
- WNS - Senior Supply Chain Planner Jul 2022 — Jul 2023
 - Supported production and inventory planning for a **\$250M+ oral care product portfolio**, managing replenishment and supply coverage across multiple plants and co-packers.
 - Built and maintained **Excel-based MRP trackers** integrating demand, safety stock, and on-hand balances to drive accurate supply signals for production planning.
 - Improved **supplier OTIF from 88% to 95%** by developing a proactive supplier scorecard and escalation system to address late shipments.
 - Conducted **Clear-to-Build analysis** across multiple production sites to assess raw material readiness and prevent delays, helping achieve **97% service levels**.
- Conneqt Business Solutions - Supply Chain Planner Nov 2021 — Jun 2022
 - Managed **procurement and RFQ cycles**, coordinating with **50+ suppliers** for order placement, PO approvals, and delivery follow-ups through SAP.
 - Maintained **inventory control reports** and executed order rescheduling to align with warehouse and production requirements, improving stock availability by **16%**.
 - Streamlined **PO approval workflows**, reducing procurement cycle time by **22%**.
 - Collaborated with logistics providers to ensure **on-time shipments** and accuracy in GRN posting and invoice processing.
- Kaagadha Solutions - Cofounder / Supply Chain Manager Jun 2017 — Oct 2020
 - Built **reorder point and EOQ models** in Excel for marketplace sellers using real-time sales data, lead times, and service level goals.
 - Automated weekly replenishment and inventory tracking, improving **fulfillment rate by 25%** and reducing stockouts by **30%**.
 - Designed profitability dashboards to evaluate SKU margins and dynamic pricing recommendations for seasonal inventory.

SKILLS

SCM Skills	: SAP ERP, MRP, WMS, EOQ, Procurement Analytics, S&OP
Data Analysis	: Python, SQL, Excel (Pivot Tables, VBA), Snowflake, Minitab, Macros
Visualization Tools	: Tableau, Google Data Studio, QuickSight
Data Management	: Data Validation, Outlier Detection, Inventory Segmentation, Predictive Modeling, MDM, Root Cause Analysis
Certifications	: CSCMP Demand Planning Professional, Great Learning Data Analytics,Lean Six Sigma Green Belt
